

AGRICULTURAL.

dress with a mixture of 3 parts ashes and 1 of plaster.

CARROTS AND PARSNIPS.

As soon as the earth can be well wrought, manure a plot with well-rotted dung, or guano; dig it in deeply, rake fine, drill in a few rows of carrot and parsnip seed, cover, and dust the bed freely with a mixture of 3 parts ashes and one of plaster, for an early crop. When the plants are big enough than the carrots out, so as to stand 4 inches apart, the parsnips 5 or 6 inches apart; the rows of the carrots should be 12 inches apart, those of parsnips 18 inches apart.

EARY POTATOES.

A bed of these should be planted as soon as the frost is out of the ground, and the soil is susceptible of being worked.

ASPARAGUS BEDS.

About the latter end of the month, fork in some well-rotted manure, or guano, and then lay the bed a dressing of a mixture of three parts ashes 1 part salt.

NEW BEDS OF ASPARAGUS.

As soon as the frost is out of the ground is the time to set out new beds of asparagus. Turn your manure well rotted, dig in deep—say two spades deep—the bed finely raked, then lay another dressing of manure, dig in a spade deep, rake fine, then plant out the plants 10 inches apart, in rows 12 inches apart. Then give the bed a dressing of a mixture formed of six parts ashes, 2 parts salt. Keep the bed clean through the season. The plants should be two years old.

SOWING BEET SEED.

Sow broad-beet seed as soon as the frost is out of the ground. Manure with rotten dung or guano, dig it in a spade deep, make drills 1 inch deep, 18 inches asunder, and sow the seed.

LEeks, GARLIC &c.

These should be set out as soon as the frost is out of the ground.

STRAWBERRY BED.

If you are not so fortunate as to have hot beds and plants growing therein, as soon as the frost is out of the ground, prepare a part of a warm, well protected border facing the South, manure it liberally, dig the matter in spade deep, rake until the soil is properly fine. This done, divide it into compartments, and sow the following kind of seeds: Cauliflower, Broccoli, Tomato, Eggplant, Early Cabbage of different sorts, and lettuce, take the seeds lightly in them put the bed with the back of the spade or shovel, strew a mixture of equal parts of ashes and plaster over the bed. Should the weather not be settled, place pine or cedar brush over the bed, and let it remain until the weather becomes settled.

ASPARAGUS.

If you design raising asparagus plants with a view of setting out a new bed, prepare a place on your border, by manuring lightly, digging in the manure a spade deep, raking till perfectly fine, then sow the seed in drills 10 inches apart, 1 inch deep, cover and put the top of the drills with the back of a spade. When the plants are up and growing they must be kept free from weeds.

GREEN PEAS.

As soon as the frost is out of the ground, and the earth can be advantageously worked, prepare a bed by manuring, digging and raking and put in a few rows of the earliest variety of green peas; at intervals of 7 or 10 days, put in a few rows more, in order that your supply of tender peas may be continuous.

BEANS.

As soon as the frost is gone and the soil can be properly wrought, manure a plot of ground, dig and rake it, and put in a few rows of Windsor beans for early use.

LATTUCE.

If you have Lettuce plants in your hotbed, you may set them out for heading as soon as the weather is settled.

RADISHES.

Radishes may be sown as soon as the frost is out of the ground.

EARLY TURNIPS.

When the weather becomes settled and the frost has departed, prepare a bed by manuring it freely with well-rotted manure, guano or bone dust dissolved in sulphuric acid, dig it in deeply, rake well, and sow early Dutch Turnip seed. After sowing the seed, rake them lightly, and put down the earth with the back of a shovel or spade, and dash the bed to with a mixture composed of 6 parts ashes 2 parts plaster, and 1 part salt.

When the plants first come up, dust them in early morning with a mixture of 5 parts sand and one part flour of sulphur. Repeat this each morning early until the plants get into the rough leaf. When the plants begin to bulk, thin them out so as to stand 10 inches apart, and you may look for a good crop of turnips.

ONIONS.

If you wish to grow a good crop of onions from the seed, manure a bed with well-rotted manure or guano, dig it in spade deep, and rake finely, lay off rows 1 inch deep, 1 foot apart, and drill in your onion seed, thin them out so as to stand 12 inches apart, and you may have a good crop before harvest.

CELERY.

Show as soon as from the absence of frost you can work the ground well, manure on your seed, dig the manure in, rake fine, and have now celery seed in drills 1 inch deep, 12 inches apart, cover the seed, and put them down on the back of a shovel or spade, to grow while plants for an early crop of celery. Keep the plants free from weeds.

RHUBARB.

Prepare a bed and sow Rhubarb or pie root seed.

HORSE RADISH.

You have not a bed of this excellent and medicinal root, select a moist, not wet spot, cover it well with well-rotted manure or manure, dig it in finely, and set out a plot of 100 feet to stand 6 inches apart, in rows of 12 inches apart.

BONEGAL OR CURLLED KALE.

Shows the latter part of the month mostly plants for a full crop.

ERICK, CURRANTS, RASPBERRIES.

Set up in a little well-rotted 2 guano around the roots, without them, then take the ground and top.

(Buffalo Democracy.)

INCREASE OF CASH CAPITAL.

To Half a Million Dollars.

IT IS THE ATNA INSURANCE CO., OF HARTFORD, CONN., having complete wealth to reciprocate insurance Agencies of Companies incorporated by other states, placed May 1st, 1841, premiums following, as required thereby. The original capital is Five Hundred Thousand Dollars, with a surplus of one thousand dollars.

BY STATE AUTHORITY.

STATEMENT.

The law of the Corporation is ATNA INSURANCE CO., of Hartford, Connecticut.

The Capital is Five Hundred Thousand Dollars, and paid in.

All Assets of the Company are:

Clear cash in Bank, and in the hands of Agents or other persons:

Real Estate unincumbered,

Mortgage Bonds, 6 and 7 per cent, interest due the Company secured by Mortgagors,

Bank Deposits, 5 and 6 per cent,
